SPECIFICATIONS

Overall width	2750mm
Overall height	470mm - 2000mm
Overall length	4250mm
Maximum truss height	4200mm
Weight	1400kg
Operational noise	40dB
Air supply	6Bar
Hydraulic oil	70L
Electrical supply	3.75kW, 380-480V, 50-60 Hz, 6amp

*Specifications and design subject to change, please confirm details when ordering

USED FOR

Automated lifting, moving and stacking of finished truss components off a truss roller press system.

FEATURES

- Automated lifting and stacking of trusses eliminates operator fatigue and lifting injuries
- Designed to handle 200kg trusses with ease
- Operator remote control allows movement when stacking
- Sensors to prevent overrun
- Toothed safety mechanism on lifting ram to prevent lifter falling should the hydraulics fail

OPTIONS

- Adjustable to match your existing outfeed height
- 3rd lifter for larger trusses
- Output to stop Finish Roller when lifting
- Spare remotes
