

## Component Nailer

### USED FOR

The Spida Component Nailer is designed to accurately nail timber components together before frame assembly. The nailer will clamp and nail one nog at a time onto a stud as required.

### FEATURES

- Caters from 3.5in to 7.5in timber
- Nog clamps keep operator hands out of nailing area
- Safety isolation of gun firing on clamps to make sure timber is present

### OPTIONS

- Left and right hand configurations

2004000

### SPECIFICATIONS

Overall length, width, height	33.4ft x 4.1ft x 6.2ft
Min/Max nail	2.75/3.54in
Max stud length	19.5ft
Max nog/block length	23.6in
Min/Max timber dimension	1.77/7.48in
Working height	3ft
Machine mass	1488lb
Operational db	90dB
Electrical requirement	220V, 10amp, single phase
Air requirement	2.1CFM/116psi
